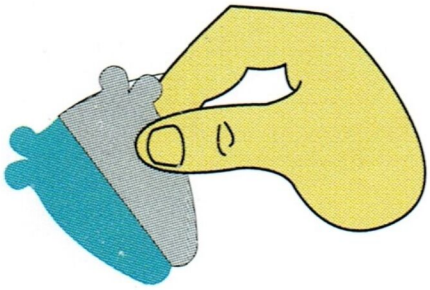
Make and Do Craft

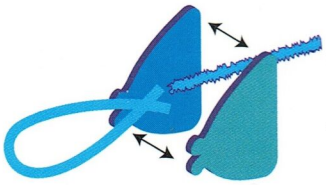
INSTRUCTIONS

See how to make me on this weeks video, also available on our web page.

1. Press the two foam shapes that look like the face from the sheet, and peel off the backing paper.

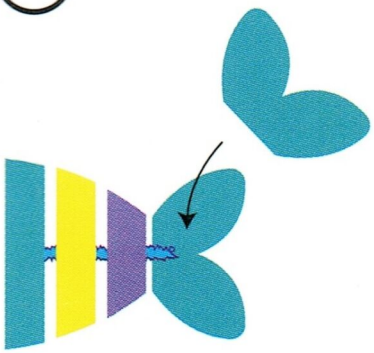


2. Take the ribbon, loop it round and place the loose ends through the lips on the sticky side of one face.
Next stick one end of the pipe cleaner on the same side of the face as the ribbon.
Then, stick the sticky sides of the face together so the ribbon and pipe cleaner are now held inside the face.

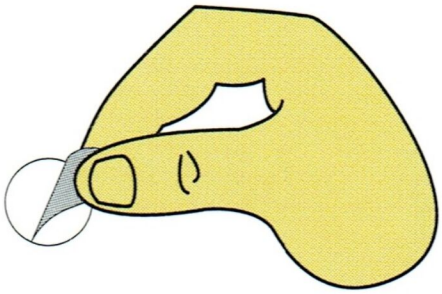


3. You need the foam sheet with the different coloured stripes.
Take one at a time starting with the biggest one at that top, and threading it on to the pipe cleaner. Slide each one up towards the face until you have used them all.

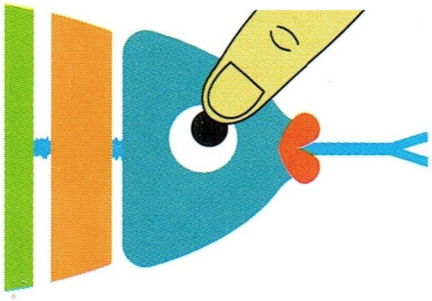
4. Press the two foam shapes that look like the tale from the sheet, and peel off the backing paper.



5. Peel off the backing paper off both eyes...



6. ... and stick one eye each side of the foam face.



7. Finally stick the lips on the mouth of the foam face...

Your fish decoration is now finished!!!
